Management Policy

4K Earth Science Private Limited understands that Sustainable Development is current need and future demand with 'Technological Inventions and Innovations' playing the key role in shaping the global system. The optimal utilization of technology requires a check, measure and balance to ensure compliance at industrial, social and environmental regulations. The 4KES is governed by the motto of "Compliance, assurance and management by sustainable development practices to minimize the threat to the environment, community and socio-economic impacts".

The 4K Earth Science Private Limited commits to develop and implement a quality management system in accordance with the GHG accreditation requirements with ethical conduct, professional and impartial approach with no compromise to quality from accepting to executing business.

Our management system is accommodated with the principles of:

- i. **Objective and Impartial approach:** The client is ensured by our personnel to provide reliable, credible, impartial, transparent and objective reports.
- ii. **Professional responsibility:** The team is built with responsibility to execution, ensuring clients that we deliver value with organized professional approach.
- iii. **Integrity and confidentiality:** The team is nurtured with integrity and confidentiality at all stages and practices.
- iv. **Compliance Assurance:** The key to customer satisfaction is quality check and assurance of compliance requirements; this avoids the risks to the clients and all concerned. The clients are assured of high competent personnel assigned to execute the tasks.
- v. **Progressive Continual Improvement:** The contribution and feedback from all personnel is recognized with the thought of having the say, stay and stand with the organization.
